

## **EECE105L Lab Instruction for Virtual Lab**

1. Students have to create an account using their gmail account (individual account) in <https://www.tinkercad.com>
2. The students will upload their lab write up in the LMS within one week of performing the experiment.
3. The format for writing the lab-writeup is as follows:
  - a. Experiment No.
  - b. Aim
  - c. Apparatus
  - d. Circuit Diagram (Schematic (using symbols) and virtual lab circuit images).
  - e. Theory
  - f. Observations (which may include Simulation Result, Graph, Observation Table)
  - g. Result and Conclusion
4. Students will have to submit handwritten write up (except images).
5. If students face problem of adding handwritten file and image file, then they create two pdf files and can merge them.
6. The submission file name must start with your enrolment no followed by experiment no (e.g., E20XXX\_03).
